

# XD Series Bi-Stable Relay Product Family Overview

**Dual Circuit** 

**Triple Circuit** 

**35-75% Reduction in Mounting Space & Product Weight** via advanced bi-stable solenoid design and multiple solenoid assemblies that replace common electrical system layouts.

#### Plug & Play Compatible with Legacy

**Products:** Single, dual and triple relays options available with DTM/ATM connectors pin for pin compatible with BSS ML Series Bi-stable Relays

**Local / Remote LED Device Indicators** assist in ensuring effective install and provides diagnostics that support debugging system related anomalies.

**Bullet-proof Construction:** Sealed to IP67/IP6K9K, high temperature electronics and materials allow mounting anywhere. Stainless steel cable lug studs. Large 1/4-20 (M6) mounting holes.

**90-95% Less Off-State Current:** Compared to competitive products and other system solutions that require multiple devices for similar functionality

**Adjustable Feature Settings** via simple dip switches allow each product variation significant flexibility to OEMs and installers.

**Intuitive Manual Control** option simplifies operation and awareness of state of manual override and whether the device is being left in a locked off or locked on state (not available with competition)

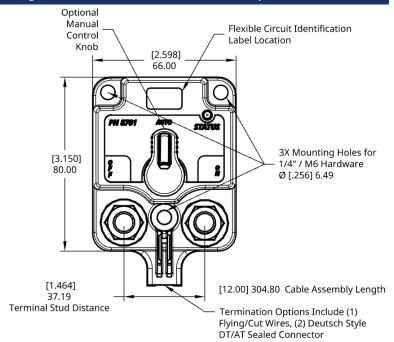

**Multiple External Inputs / Outputs** provide significant operational flexibility and external indication or secondary device controls.

4 Year Warranty

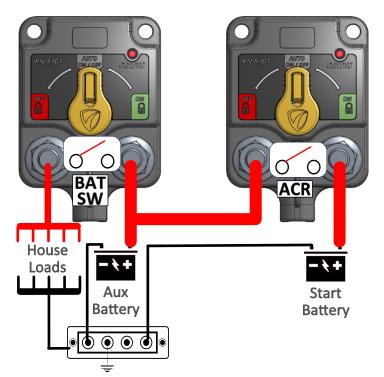

#### Single Circuit Dimensions / Family Features

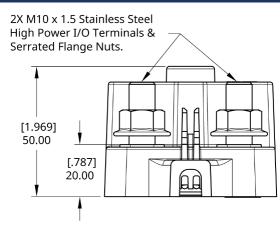

#### Single Relay Common Applications

Ex: 8701-1101
Flex Relay Programmed as
Remote Battery Disconnect

Ex: 8701-1103
Dual Battery Automatic
Charging Relay

\* Custom product configurations available including control harness wires, time delays, voltage settings, dip switch functionality, and control input functionality. Low minimum quantities and short lead time for samples or production. Contact support@egismobile.com

General Specifications	Inax Baland
General Specifications (	iper kelayi

deneral specifications (per	neluyj	
Input Voltage Range (Vdc)	8.0 - 36.0 Auto-Ranging	
Nominal Voltage (Vdc)	12	24
Over Voltage Protection (Vdc) (5 sec)	17.0	34.0
State Change Current (20 msec)	5.0 A	3.0 A
Standby Current, Entire Device	1.2 mA	
Live Current Switching -10,000 cycles	12V/	300A
Mechanical Switching Life	1,000,000 cycles	
2/0 AWG - 30sec/5min/Continuous	1000 / 400	/ 225 Amps
4/0 AWG - 30sec/5min/Continuous	1100 / 400	/ 300 Amps
2x 4/0 AWG - 30sec/5min/Cont.	1600 / 700	/ 500 Amps
Hardware Material	Stainless Stee	el Self-Locking
Terminal Stud Torque	120 i	n-lbs
LED/Aux Output Max Drive Current	400	mA
Min Source Current for Inputs	10 micr	o-Amps
